

Ready-to-Go Package for Infor SunSystems

## Transform Into A World-Class Financial Accounting in just 2-weeks\*!

Infor FMS (Financial Management System) financial accounting solutions put finance on solid ground, fully supporting the operational management of the business by providing instant access to and control over finance and accounting information. These Infor corporate financial management applications have stood the test of time, yet incorporate advanced technologies to help companies streamline enterprise-wide processes, achieve economies of scale, and improve visibility into performance.

**Infor's financial accounting solutions help companies like yours to achieve the following:**

- Implement adaptable financial business processes on a global scale
- Reduce errors and cycle time
- Improve visibility into financial processes and overall performance
- Improve user productivity through easy reporting, querying, and data entry
- Comply with Sarbanes-Oxley and IFRS reporting requirements
- Enable collaboration inside and outside your organization
